

Culture Agora is now available in Arabic and Italian

[Culture Agora](#), managed by CUMEDIAE, continues to be a **premium online visibility and communication tool** for cultural organizations, professionals and many others interested in the **arts and the creative sector**. We recently launched new language versions in Italian and Arabic!

After this expansion, made possible by [Brussels Invest-Export](#), this easy-to-use wiki platform **continues to reach larger audiences** and we encourage you, as individuals and organisations in the Cultural and Creative Industries, to **spread the good news**, especially to Italian organisations as well as organisations in Arabic speaking countries. That way, they will be able to explore this tool and give greater visibility to their organisations also.
